## About the Book:

(from the publisher's website)

In the winter of 1885, decorated war hero Colonel Allen Forrester leads a small band of men on an expedition that has been deemed impossible: to venture up the Wolverine River and pierce the vast, untamed Alaska Territory. Leaving behind Sophie, his newly pregnant wife, Colonel Forrester records his extraordinary experiences in hopes that his journal will reach her if he doesn't return—once he passes beyond the edge of the known world, there's no telling what awaits him.

The Wolverine River Valley is not only breathtaking and forbidding but also terrifying in ways that the colonel and his men never could have imagined. As they map the territory and gather information on the native tribes, whose understanding of the natural world is unlike anything they have ever encountered, Forrester and his men discover the blurred lines between human and wild animal, the living and the dead. And while the men knew they would face starvation and danger, they cannot escape the sense that some greater, mysterious force threatens their lives.

Meanwhile, on her own at Vancouver Barracks, Sophie chafes under the social restrictions and yearns to travel alongside her husband. She does not know that the winter will require as much of her as it does her husband, that both her courage and faith will be tested to the breaking point. Can her exploration of nature through the new art of photography help her to rediscover her sense of beauty and wonder?

*Cold Mountain* by Charles Frazier

*The Arctic Fury* by Greer Macallister

*The Great Alone* by Kristin Hannah

# To the Bright Edge of the World

1. A major theme of the novel is how characters see the natural world in vastly different ways. How do Allen and Sophie Forrester's understanding of the world around them differ from the native tribes that Allen and his men encounter on their journey up the Wolverine River? Which worldview lines up more closely with your own experience of nature?
2. The author uses letters, journal entries, newspaper headlines, and other documents from the past to tell her story. How does the novel's construction affect your reading experience?
3. How do you think the expedition would have changed if Sophie were able to accompany Allen on his journey as she had originally planned?
4. The new art of photography becomes very important to Sophie. In what ways does her pursuit of art help her through a difficult time in her life? Does any art form play a similar role in your own life?
5. Do Allen Forrester and his men change the environment and tribes that they encounter on their expedition, or are they the ones more changed?
6. The intersection of myth and reality plays a central role in the novel. In what ways does the line between myth and reality become blurred? How do you as a reader tell the difference? And in what ways do Sophie's and Allen's stories take on the hint of myth as the years go by?
7. First person narrations can at times be unreliable. How trustworthy are Allen's and Sophie's diary entries and letters? Do you think there's a difference in the reliability of the narration between letters meant to be read by another person and diary entries that an individual writes to process their own lives? Do you think all the events we read about from the expedition happened as described?
8. Is *To the Bright Edge of the World* primarily an adventure story, a love story, historical fiction, a mix of all three, or a different genre altogether? Why?
9. Who do you see as the main character of the novel—Allen or Sophie? Does the novel have a villain? If so, who, or what, is it?
